

ROSS NUGENT FOUNDATION

Making life more comfortable

The Ross Nugent Foundation has so far donated 19 bionic therapy chairs at a cost of more than €100,000 and each has been fitted with individual TV monitors in order to make day treatment more comfortable.

A testimonial from the Haematology ward, Beaumont Hospital....

"We would like to express our sincere gratitude for your generous donation of electric beds and colleague infusion pumps. Patients who are enduring the stress and strain of cancer deserve the best treatment. The beds and the infusion pumps have helped to achieve this objective. Indeed the patients have commented that they can sleep more comfortably. The infusion pumps enable chemotherapy to be administered safely. The chairs have enabled family members to sleep beside their loved ones... Your support truly makes a difference in the lives of the patients".

Over 250 pieces of equipment supplied to Beaumont cancer units so far including electric beds, blood pressure monitors, chair-beds, foot stools, bionic therapy chairs, TV monitors and a fully equipped chill-out room "The Glade". (For more go to [Gallery](#) page on our website).

RNF NEWSLETTER

THE 8TH EDITION OF AN OCCASIONAL BULLETIN TO KEEP OUR FRIENDS AND SUPPORTERS UP TO DATE WITH WHAT'S HAPPENING IN THE ROSS NUGENT FOUNDATION.

Dear friends,

We have continued to provide equipment to Beaumont cancer units thanks to your very generous support. We have recently placed orders for a further €80,000 of equipment and donated €25,000 for the upgrading of a patient/family room in the Haematology unit in Beaumont. We have also recently donated 9 more bionic therapy chairs at a cost of €5,500 each and fitted them with individual TV monitors. The objectives of the Ross Nugent Foundation are based on Ross's promise to make life more comfortable for the patients, their families and the amazing nursing staff. We are focused on fulfilling our goal in Ross's name. Special thanks go to all of you who support our fundraising events to make all of this possible.
